

*Greetings to WSLC Convention delegates from
the National Mobilization for Reproductive Justice*

Abortion rights are labor's FIGHT!

Unionists are raising their voices along with multitudes of people protesting the Supreme Court's reactionary June 24 decision abolishing the constitutional right to abortion. The Court has dragged the U.S. back 50 years. It's back to the days of pro-segregation "states' rights" law and bans on contraception and queer identities. And forward to the dystopia of a fertilized egg having all the rights of personhood.

We reject this future.

There is an urgent need to fight back. Our unions must take the lead in this battle both on the job and in the streets. Working people will not be denied the ability to control our own bodies, lives, job options and health care.

Gender gaps in wages, promotions, and education are dramatically widened when parents have to leave the workforce to provide childcare. The many forms of reproductive **injustice**, including forced sterilization and lack of affordable housing and healthcare, have the most devastating consequences for people who are poor, of color, queer, trans, or living with disabilities.

Emergency labor action needed

The fight for reproductive rights needs the militancy, know-how, experience and vast membership of our unions. ***We urge WSLC unions to call on the AFL-CIO to organize an emergency national conference of working women and allies to strategize how to restore abortion and win full reproductive justice.***

The National Mobilization for Reproductive Justice is a growing coalition of unions, groups and individuals based on these demands:

- **Restore and expand *Roe v. Wade*; safe, legal abortion on demand without apology**
- **Repeal the Hyde Amendment**
- **Overturn state barriers to reproductive choices**
- **Stop forced sterilization**
- **No to caged kids, forced assimilation, & child welfare abuses**
- **End medical & environmental racism; for universal healthcare**
- **Defend queer & trans families**
- **Guarantee medically sound sex education & affordable childcare**
- **Sexual self-determination for people with disabilities**
- **Uphold social progress with expanded voting rights & strong unions**
